City of Atlantic City Receives Grant for 19 Electric Vehicles, Awarded Largest Transit Village Grant in New Jersey

Atlantic City, N.J. (December 21, 2023) – The Murphy administration announced a \$2.32-million grant has been awarded to the City of Atlantic City for electric vehicles. This will fund 19 vehicles for the city’s Department of Public Works, including trash trucks, service vehicles, a passenger bus and pickups. Also, vehicle charging stations will be installed at the Atlantic City Public Works Complex on Albany Avenue.

“Atlantic City continues to take bold actions to mitigate climate change impacts and at the same time reduce the cost to the taxpayers,” said City of Atlantic City Mayor Marty Small, Sr. “This grant will allow the city to purchase 19 electric vehicles for the hard-working men and women of the Public Works Department. We thank the State for their support.”

Atlantic City also recently received the largest Transit Village grant in the State of New Jersey - \$679,000 - for pedestrian improvements to connect the rail station and bus terminal to the Ducktown Neighborhood. The Murphy Administration announced \$3.2-million in FY 2024 Transit Village grants to assist seven municipalities advance development projects that will improve quality of life.
