FOR IMMEDIATE RELEASE

July 27, 2026

On July 27, 2026, at approximately 5:31 a.m., emergency personnel responded to a reported fire at the Ocean Casino Resort.

Upon arrival, crews located a fire in the linen capture room. The fire produced heavy smoke conditions and burning debris. Firefighters initiated suppression operations and successfully contained and extinguished the fire.

During suppression operations, a significant water release occurred, resulting in heavy water flow throughout portions of the property. The water intrusion caused a large ceiling collapse in the lobby area, with additional water impacting elevator shafts and back-of-house hallways.

Fire personnel successfully contained and extinguished the fire. Water control operations were completed, and the incident was subsequently turned over to Ocean Casino Resort Facilities personnel.

No injuries have been reported at this time. The cause of the fire remains under investigation.
