**1. Question:** Does Atlantic City currently use an automated Payroll solution? If so, which vendor? Any specific challenges with the current system which require a change? We noticed the in-house GL and Edmunds for Financials.

*Answer: The City currently uses Primepoint – A full service system.*

**2. Question:** The RFP calls out the ability to import time from time keeping systems (Kronos Timeclock) and the Employee Self Service. Is the City looking to expand its Kronos timekeeping usage?

*Answer: No. Respondents shall offer timekeeping capabilities or be able to import from a timekeeping system.*

Thank you for your cooperation.
